The Campus Hotel is a nice three-stars hotel very close to the University Campus hosting the NANOMECH-06 Symposium.

Since the car entrance is actually located off-campus, you may have to access to the hotel walking through the streets surrounding the campus area.

During technical sessions you can reach the hotel walking inside campus. The map shows the location of NANOMECH-06 conference rooms (Aula Magna 1 and 2) and of the Department of Physics. Car entrance through Via Orabona is allowed only to authorized university employees.
